

7th Army Training Command

Training Support Center

Bamberg

Mission

Manages, coordinates, and supervises all training resources and assets required to support individual and unit Home Station training objectives regarding audio/visual equipment, training films and GTA's as well as for training aids and devices.

Provides graphic and photography support.

Provides tenant units with MILES I Equipment is responsible for the scheduling of classes and maintenance of training equipment.

The Training Support Center offers the following services:

***Training Support Center, Bldg.
7316***

- ➡ Visual Information Equipment
- ➡ Training Aids and Devices
 - ➡ Graphic Training Aids
 - ➡ MILES Equipment
 - ➡ Training Films

(You want to loan out a training film and don't know if the topics match with your class? At our location you have the chance to preview the tapes before checking them out!)

➡ Photo Studio

***Finance/PSB Building 7290
Room 201***

Our phone numbers are:

TSC Customer Service:

Mr. Blackshear and Mr. Dotterweich **469-7696**

Training Resource Spec.:

Mr. Wagner **469-8196**

MILES Warehouse:

Mr. Hoffmann **469-8891**

Photo-Studio:

Mr. Langhammer **469-7602**

Graphics:

Ms. Roemer **469-7424**

MILES I Training Classes

- **Classes will be held in Bamberg Unit's Motorpool or the MILES Warehouse at Hohenfels.**
- **Classes will be set up 6-8 Weeks in advance!!**
- **Therefore Unit's are required to turn in their schedule to the Training Support Center, Bldg. 7316.**

For further information please call Mr. Gerhard Homan, TSC MILES Clerk at DSN 469-8891 or 7696

**FYI: Miles POC Hohenfels is Mr. Helmvrath, DSN:
466-2813**

AGENDA:

Slides 1 - 5	General Information
Slides 6 - 53 and Simulators	Training Aids Devices
Slides 54 - 92 Equipment	Visual Information
Slides 93 - 10	Training Film Catalog
Slides 107 - 115	Graphic Training Aids

T RAINING

A IDS

D EVICES

AND

S IMULATORS

Rifle, M16A1, Mock-up

NSN: 6920-00-V37-4278

DA DVC 09-020

Description: The trainer is a 2:1 scale mock-up of the M16A1 with all parts operable but non firing. The device can be manually operated through the complete cycles of semi-automatic and automatic rates of fire. It can be field stripped and reassembled using the same procedures as with the actual rifle.

Physical information: 58"x48"x20"; 30lbs

Body, Practice Hand Grenade

NSN: 1330-00-178-8515

AE DVC 09-03

Description: Full-size, three dimensional replica of a hand grenade

Launcher, Practice, Subcaliber Ammunition M287 (AT-4)

NSN: 6920-01-273-6081

DA DVC 99-38

Description: The tracer is a fully self-contained, light weight, man portable, shoulder fired training device, similar in appearance and operation to the tactical AT-4. The tracer comes complete with front and rear sights. The sights are protected by sliding covers. If those are opened sights will erect automatically. Rear sight is adjustable from 100 to 500 meters, initially set at 200 meters. A shoulder stop and carrying sling is provided. The tracer trainer simulates the tactical weapon in physical and operational characteristics.

Pistol Beretta, 9mm Plastic

NSN: 6920-00-TSC-3544

DVC T 07-99

Description: Full-size, three dimensional plastic non firing M9 Beretta

Sighting Device, M16, Right Hand

NSN: 6920-00-V37-3866

DVC T 07-84A

Description: Sighting device is used on the M16A1/M16A2 during marksmanship training

Rifle, M16A2

NSN: 6920-00-V37-2384

DVC T 07-83B

Description: Full size, three dimensional, non firing replica which can be used for field exercises or during tactical training.

Target Box Paddle

NSN: 6920-00-V37-3868

DVC T 07-86

Description: A plate of Plexiglas, 12 5/8" in length, with a silhouette target (scaled for 250 meter, 25 meters and 15 yards) on each end. On the center of the handle are 2 circles (4cm and 1 cm). The smaller one is for checking the shot group size during the target box exercise and the larger circle is for the live fire exercise.

Riddle Sighting Device
NSN: 6920-00-V37-3869
DVC T 07-87

Description: Plastic sighting device will be used for marksmanship training.

M16 Rifle Magazine Rounds Counter

NSN: 6920-00-V37-3867

DVC T 07-85

Description: Plastic device is used for rounds counting checks during live fire practice.

Rifle Rest Stand M16A2

NSN: 6910-00-V37-0868

AE DVC 07-03

Description: Wooden aiming box will be used for marksmanship training.

Mine Clearing Line Charge Trainer

NSN: 6920-00-V37-8526

AE DVC 05-039/A

Description: The device is used to train MICLIC operators and crews on MICLIC employment for minefield breaching and neutralization and on MICLIC pre-fire procedures.

Placed Mine Training Kit

NSN: 6920-00-V37-1038

DVC T 05-41

Description: Full size, three dimensional replicas of various types of mines which can be used for field recognition or classroom exercise.

Training Device, Stress, Shoot/Don't Shoot

NSN: 6920-00-V37-2142

DA DVC 19-002

Description: The device is an electronic video presentation system which consists of a large console, a small control console, a large white screen and three different weapons. The device presents a target or situation on the screen and requires the trainee to decide if and when to shoot.

Modular Pack Mine System (MOPMS)

NSN: 6920-01-162-9380

DA DVC 05-20

Description: This device is a training dispenser (ground) the same size and weight as the actual MOPMS M131 dispenser. The training dispenser is inert and does not contain mines. An externally mounted lamp indicates receipt of deploy command from either the remote control unit (RCU) or a blasting machine.

Mine M18A1 Claymore
NSN: 6920-00-V37-1795
AE DVC 05-34

Description: Device can be used in a field environment to train the proper set up of claymore mines.

Multi Arcade Combat System (Super Nintendo MACS)

NSN: 6920-00-V37-3548

DVC T 07-90B

Description: MAC-System is used for indoor marksmanship training.

MK22 Rocket Motor Inert

NSN: 6920-00-V37-3695

DVC T 07-87

Description: Device is used for re- and unloading FA drill training.

Threat Vehicles Kit, Boeselager

NSN: 6910-00-V37-0093

AE DVC 30-66

Description: Small scaled, three dimensional models of vehicles which give the soldier an overall view of enemy threat vehicles.

Model Armor Vehicle, 1/35 Scale

NSN: 6910-00-V37-3891

DVC T 17-102

Description: Small scale models of friendly and enemy tactical vehicles.

Rifle, Sniper SVD

NSN: 6920-00-V37-0022

DVC T 30-18

**Description: Full size, three dimensional,
non firing replica**

Rifle Assault, AK-47
NSN: 6920-00-V37-0024
AE DVC30-06

Description: Full size, three dimensional, non firing replica

Rifle Assault, AK-47
NSN: 6920-00-V37-3902
AE DVC 30-05

**Description: Full size, three dimensional,
non firing replica**

Mine Antitank, Soviet
NSN: 6920-00-V37-0104
DVC T 09-39

Description: Full size, three dimensional, non explosive replica which can be used for field recognition or during tactical exercise.

Helmet Opposing Forces

NSN: 6910-00-V37-3909

DVC T 30-13

Description: Helmet can be used together with OPFOR shirt for enemy forces demonstration

Opposing Forces Uniform Shirt

NSN: 6910-00-V37-3912

DVC T 30-16

Description: OPFOR Uniform can be used in the field for a better enemy forces demonstration

Missile Antiaircraft, SA-7 GRAIL

NSN: 6920-00-V37-3910

DVC T 30-14

Description: Full scale, three dimensional plastic and metal

**replica of the SA-7 guided
antiaircraft missile
system (Grail).**

Machine Gun RPK Squad

NSN: 6920-00-V37-3903

DVC T 30-07

**Description: Full size, three dimensional, non firing
replica of a RPK squad machine gun.**

Grenade, Antitank Launcher With RPG-7

NSN: 6920-00-V37-3901

DVC T 30-05

Description: Full size, three dimensional, non firing replica

Bosnia Mine Recognition Board

NSN: 6910-00-V37-4955

DVC T 05-52

Description: The recognition board is made up of various enemy style mines.

Manikin, Head & Torso
NSN: 6910-01-080-2885
DA DVC 08-16

Description: Device can be used for indoor training of various medical techniques.

Manikin Full Bodied, Adult

NSN: 6920-00-V37-0127

AE DVC 08-23

Description: Device can be used to train first aid and live saving situations at indoor locations.

Casualty Simulation Kit

NSN: 6910-00-V37-0126

DA DVC 08-24

Description: Make up Kit can be used in the field to simulate casualties and first aid situation

Manikin Adult, CPR Choking

NSN: 6910-00-V37-0125

AE DVC 08-21A

Description: The manikin can be used to give hands-on training of the proper way to apply CPR, and how to relieve choking victims.

**Generator Set Zeise
NSN: 6115-00-V37-0001
AE DVC 20-25A**

Description: Lighting, heating and electrical appliances, transformers, consumers for AC, 3-phase AC and universal motors have the requirement of energy which is within the range of capacity of the generator considering the starting currents and the power factor.

**Target Lifting Mechanism (#2), 6920-00-V37-0114,
AE DVC 07-10**

**Transmitter - Radio Control (#3), 6920-00-V37-0112,
AE DVC 20-06/A**

Description: The IKS is designed as a self-contained unit for mobile use on firing ranges of all types to simulate suddenly appearing targets for firing practice with small arms. The IKS is controlled via radio transmitter type S 104

Components: 1. Infantry pop-up target unit type IKS 104

2. Battery box for NICD battery, 12V

3. Transmitter with antenna/battery and address block/cables

Simulator Laser Target Interface Device (LTID)

NSN: 1265-01-221-9438

DA DVC 17-146

Components:

1. Electronics assembly: 11"x 4" x 7"
2. Detection assembly: 8"x4"x2" SGM: 6"x6"x3" (all packaged)
3. Batteries: 6 Volt, BA - 200/U

Description:

LTID is comprised of a detection assembly, an electronic assembly, and a shock generator mechanism (SGM). The detection assembly simulates target vulnerability using six detectors fastened with Velcro to the target. The electronic assembly contains the detector amplifier, decoder, SGM activation electronics, and two standard 6-Volt lantern batteries. The SGM activates the target lift mechanism when a "hit" is decoded.

S YSTEM

Simulator System Firing Laser M89 F/M16A1/A2 Rifle

NSN: 1265-01-236-6725

DA DVC 07-056/13

Components:

1. A laser transmitting, attached to the rifle, which is used to direct and fire a laser beam towards a desired target.
2. Weapon key (yellow): this yellow key can be used to turn on the small arms transmitter, and silence the alarm on the man-worn laser detector assembly.
3. MWLD: this assembly consists of the helmet and torso harness assemblies worn by military personnel.

Description:

The M89 simulator system for M16A1/A2 rifle, consists of small arms laser transmitter mounted on the barrel of the weapon, a man-worn detector assembly installed on a load-carrying harness, and a strap which fits over a standard issue steel helmet. When a laser beam from a transmitter strikes a detector, an alarm located near the soldier's left ear informs him when he has suffered a "near miss" or that he has been "killed". If the soldier is killed the alarm will be continuous. To shut off the alarm, the soldier must remove a key from his/her transmitter and put it into a receptacle on his/her load carrying harness. With the key removed from the transmitter, the laser transmitter will not operate. Removing the weapon capability to fire simulates a combat casualty.

Simulator System Firing Laser M63 F/M 113 APC and TOW Vehicles

NSN: 1265-01-077-6082

DA DVC 07-056/05

Components:

1. Control indicator (console)
2. Combat vehicle kill indicator (CVKI light)
3. M2 machine gun transmitter
4. Orange key
5. Detector belts 04 each
6. MWLD (man worn laser detector) torso, harness & helmet harness
7. Battery box

Description:

Laser transmitter mounted on barrel of M2 machine gun, and activated by sound of blank cartridges being fired. Detector belt segments mounted on all four sides of the vehicle hull. A combat vehicle kill indicator (CVKI) mounted to the engine cover lifting eye. The CVK is a light which flashes to indicate laser hits on the vehicle.

Firing Attachment, Blank Ammunition M2 Machine Gun (M19 BFA)

NSN: 1005-01-091-7510

DA DVC 07-059

Description: Cal .50 M2 heavy barrel machine gun. The blank firing attachment (BFA) clamps on to the M2 machine gun to enable blank ammo to be fired and still provide enough back pressure to sustain continuous firing.

Simulator System Firing Laser M251 For Controller Gun

NSN: 6920-01-092-0891

DA DVC 07-056/09

Description:

The controller's gun is a light weight, hand-held device capable of interrogating miles man-worn and vehicle mounted laser detection systems to determine proper operation in the field. The controller's gun assembly has a green controller key and a standard small weapon battery-powered laser transmitter. The gun is carried in a holster attached to the service belt.

The green controller key is inserted into receptacles located on the various miles simulators. Depending on which miles equipped items being used. The controller key performs one more actions.

Test Set Electronic System M144 For MILES Vehicles

NSN: 6625-01-115-7539

DA DVC 99-028

Description:

The electronic system test set is used to test the operation Detector belt segments, vehicle control consoles, combat vehicle kill indicators (CVKI), 6 and 9 Volt batteries, trigger voltage levels, and the battery box. The set is equipped with the necessary cables needed to test miles equipment. Power is provided from the vehicle system under test.

Small Arms Alignment Fixture (SAAF) Alignment Device, Laser Transmitter

NSN: 5860-01-116-8160

DA DVC 99-025

Components:

1. Small arms alignment fixture (SAAF) for M16A1/A2 laser.
2. Nylon bag with 25 meters cord and instruction to assure that the soldiers boresight their weapons at the proper distance of 25 meters.

Description:

The alignment devices, laser transmitter: short range, also Referred to herein as alignment fixture, and fixture, is an alignment device used to aid in aligning M16A1/A2 rifle and M60 machine gun sights to the laser beam emitted from the miles transmitter mounted on the weapon, this procedure is conducted when a miles laser transmitter is first attached to the weapon and at any other time that a soldier would normally be expected to adjust his sights.

Mobile Independent Target System (MITS)

NSN: 1265-01-298-4582

DA DVC 7-056/15

Description: The MITS provides realistic combat training using military vehicles and weapons equipped with MILES without the danger of live ammunition. The MITS, when installed, allows the attacker to engage vehicles using MILES laser transmitter systems. Target type is selected by setting the MITS controls. The MITS components are stored and transported in a foam-line transit case.

Simulator System Firing Laser M90 F/N 249

NSN: 1265-01-236-6724

DA DVC 07-056/14

Components:

1. M246 SAW laser; a laser transmitting device, attached to the rifle, which is used to direct and fire a laser beam towards a desired target.
2. Weapon key (yellow): this yellow key can be used to turn on the small arms transmitter, and silence the alarm on the man-worn laser detector assembly.
3. MWLD: the assembly consists of the helmet and torso harness assemblies worn by military personnel.

Description:

The M90 simulator system for M249 saw consists of a small arms laser transmitter mounted on the barrel of the weapon, a man-worn detector assembly installed on a load carrying harness, and a strap which fits over a standard issue steel helmet.

Simulator System Firing Laser M65 F/M 60A1/A3 Tank

NSN: 1265-01-077-6080

DA DVC 07-056/07

Components:

1. Combat vehicle kill indicator (CVKI light)
2. Control console
3. Battery box
4. M85 machine gun transmitter
5. Orange weapon key
6. Yellow key
7. 105mm/coax transmitter (main gun transmitter)
8. Detector belts 03 each : two #3, and one #4.
9. MWLD (man worn laser detector) torso harness and Helmet harness
10. Not in the picture, adapter set (trigger, breech ,and kill Indicator cable) for function of the system M60A1/A3 tank

Description: Laser transmitter in breech of main gun laser transmitter on barrel support of M85 machine gun in cupola. Detector belt segments on each side of the turret and on the rear. A combat vehicle kill indicator which mounts to rear turret lifting eye. This device consists of a flashing light to indicate a vehicle kill, Near miss, and hit.
